Introducing **ila**

A wellness partner on the same wavelength.

Finding your feel-good is just one treatment away with ila. Every cream, oil, scrub, and mask is designed to provide nourishment, balance and a path to inner joy.

Going deeper than surface-level beauty, each product is crafted using organic, wild-harvested ingredients, sourced sustainably from remote parts of the world.

Active ingredients like Himalayan salts, rose damascena, and sandalwood deliver visible benefits while enveloping you in sensorial bliss.

Want to take the feeling home? All ila products used in our treatments are available to purchase in our Spa Studio.
